Our Educational Policy

(By An Observer.)

Truly, it takes all types and classes of people to make a world but one is surprised to find in this enlightened age the obsolete type that does not believe in higher education, or education beyond the "3 R's". The type who is worrying for fear his children will know more than he does, and works and uses his influence to prevent children attending school, as much as possible.

It is a blessing that the educating of our future statesmen and citizens is in the hands of the Govt. and is not left to the methods such persons would adapt. That the standards of education must be kept up and that the children must attend school. If this were not so in many places, the next generation would be 200 years behind the twentieth century in which we are living.

This type of man is usually fond of boasting that he has never gone to college and only a few months to public school and yet never lacked for education. He usually abounds in rural districts and most readers of this paper know at least one specimen of him, often he has managed by dint of hard work, patience and thrift—sometimes this latter quality would better be described as niggardliness—to amass considerable wealth, so now he measures all success in terms of money. He despises educated people who have given their life for the betterment of conditions for their fellow man, but have failed to accumulate wealth.

If this type of man retained his (Continued on Page 8)

Seventy Russian families, who have arrived in London from Latvia, are, the London Daily Mail says, the forerunners of thousands of other Russian families which will leave Russia to settle in Canada during the spring. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gagnon, Donatville, Alta., writes: "Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just leave everything and sit down."

I spent a lot of money using medicine from the doctor, but it did not do me any good.

At last a friend told me to use and after using a couple of boxes I was not the same woman I began to feel so much better, and after a few more boxes I was in perfect health. I always recommend them to all those I know who are suffering from heart trouble.

No Fear of Influenza Outbreak

Could Spread Check to Canada Says Toronto Health Officer

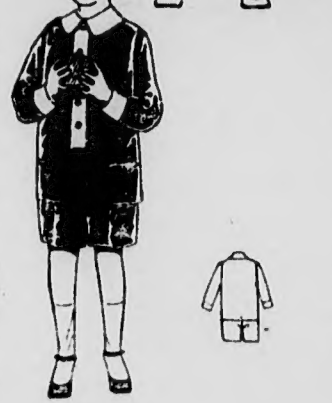

The serious outbreak of influenza now claiming many lives in central and northern Europe is not expected to invade Canada, according to Dr. Charles J. O. Hastings, medical officer of health for Toronto. The doctor reassured citizens that even should the European outbreak assume serious proportions its spread to this country could be checked. Because of the heavy tourist and immigrant traffic to the United States which continued undiminished during winter months the doctor feared influenza might invade that country from Europe.

At the annual meeting of the Alberta Livestock board at Edmonton, J. Charles Yule, of Carstairs, was elected president; J. P. Sackville, Edmonton, vice-president. Steps will be taken to set aside further assistance from the provincial government toward the exhibit going east to the Royal shows next year. It is proposed to send an exhibit of all kinds of stock from Alberta to Toronto next year. To facilitate the shipping of a sheep exhibit the minister of agriculture will be asked to pay a competent man to accompany them.

There was considerable discussion regarding the appointment of judges for fairs and some recommendations will go forward to the Dominion government which it is hoped will overcome the present unsatisfactory conditions.

FATEFUL YEARS FOR ALL WOMEN

Much Suffering Can be Avoided Through the Use of Dr. Williams' Pink Pills

The most fateful years in a woman's life are those between forty-five and fifty. Many women enter this term under depressing conditions; through overwork, worry, or a watery condition of the blood, and they suffer heavily.

Among the commonest symptoms are headaches, palpitations, dizziness, backaches, depression and other well recognized disturbances of the health which show that the blood requires attention. Women stand in need of rich red blood all their lives, but never more so than at middle age, when the nerves are also weak and overwrought. In this condition there is no other medicine can do so much for women as Dr. Williams' Pink Pills, for these pills make rich, red blood, which gives tone to the whole body, thus restoring robust health. Thousands of Canadian women have proved the value of Dr. Williams' Pink Pills in cases of this kind. Among them is Mrs. J. H. Johnston, Lion's Head, Ont., who says: "I am writing to let you know the wonderful good your pills have done me. I was a complete wreck, and would faint if I crossed the room. I was going through the change of life, and was so weak I could not do my work. I went to Toronto, when my folks said nothing but an operation would help me. But I said: 'No, Dr. Williams' Pink Pills helped me in girlhood, and I am going to give them a trial.' I took the pills steadily for a month, when I returned home a well woman, able to do all my work with ease. Friends here say it's a wonder I am alive after what I went through, and I am thankful to say I believe Dr. Williams' Pink Pills saved my life."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Portrait of Lenine Appears on Stamps

Proceeds of Restricted Issue to be Used for Charity

For the first time since his death the visage of Nicolai Lenine has appeared on an issue of stamps. It represents him as a child of nine, long before Communism was dreamed of in Russia and appears on a restricted issue of twenty kopek stamps, the proceeds to be devoted to relief of the nation's 500,000 vagrant children. Heretofore the authorities have forbidden use of Lenine's likeness on stamps, cigarette boxes or advertising matter. The rule was relaxed in this instance to help the children.

A Good Policy

When a high-salaried executive left the employ of the Marshall Field store, some one asked Mr. Shedd, the president of the firm, what he was going to do. "Hire another office boy," he said. Promoting all along the line and filling in the vacancy at the bottom was his policy, and he found that it helped to keep his business prosperous and the morals of his staff high.—Youth's Companion.

BAD COLD? TAKE "CASCARETS" FOR BOWELS TONIGHT

No headache, constipation, bad cold or sour stomach by morning

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

SUNDAY SCHOOL LESSON

JANUARY 30

THE CHRISTIAN OVERCOMING TEMPTATION

Golden Text: In that He Himself that suffered being tempted, He is able to succor them that are tempted. —Hebrews 2:18.

Lesson: Luke 4:1-13; I. Corinthians 10:12, 13.

Devotional Reading: Romans 8:31-39.

Explanations and Comments

I. The Scene and the Nature of the Temptation, Luke 4:1, 2.—Yielding to the control of the Holy Spirit, who had come to Him in a special way at His baptism, Jesus went from the Jordan into the wilderness, there to meditate undisturbed upon the work God had given Him to do. During forty days spent there, a period referred to here perhaps as a "round number," representing many days, he was "tempted of the devil." As the story is told in Mark, Jesus seems to have waged his great struggle throughout his wilderness sojourn, but as told in Matthew and Luke the specific temptations seem to have come at the end of the period.

Jesus himself must have related this temptation, for in no other way could it have become known. We have the account as Jesus gave it of a conflict which took place in His mind, an inner and spiritual struggle, which he pictured by a series of fitting images which His followers would understand. We cannot believe that had Jesus listened to the words of the devil in person, knowing that they were of the evil one (as the literal interpretation of the story puts it), they would have held any temptation for Him. The devil is represented as standing in person beside Him, pointing to the stones round about them, transporting Him to the top of a hill, and to the pinnacle of the temple. "There must be something so attractive about a temptation, so deceptive, so persuasive, that even a good man shall feel inclined to accept the invitation. The choice which we all make, sinners though we are, is not between the known good and the known bad; it is between two courses of action, each of which appears to be good. It is very rarely that we sin, saying boldly to ourselves, 'This is plainly in defiance of the will of God, but I will do it.' No, we somehow persuade ourselves that darkness is light, and evil is good. We do the bidding of the devil, but in order to get us to do it he has to disguise himself so that we may not recognize him. If the devil came, the plain devil, and said, 'Do this,' we would not do it. It is not in that manner that we are tempted. Still less was Christ thus tempted. The sight of the tempter, the consequent knowledge that the suggestion of his pointing finger was the suggestion of evil, would have made any true temptation totally impossible." —George H. Hodges.

For the first time since his death the visage of Nicolai Lenine has appeared on an issue of stamps. It represents him as a child of nine, long before Communism was dreamed of in Russia and appears on a restricted issue of twenty kopek stamps, the proceeds to be devoted to relief of the nation's 500,000 vagrant children. Made Miserable By Eczema In Blisters Cuticura Healed

"Eczema broke out in watery blisters on my face, hands, arms and limbs and made me miserable. After the blisters broke sore eruptions formed and they were terribly itchy, causing me to lose my rest both day and night. I could not do any work, and could not touch water. My clothing aggravated the breaking out on my limbs.

"I was treated and tried different remedies but they did not help me. I read an advertisement for Cuticura Soap and Ointment and purchased some and in less than a month I was completely healed."

A League of English Speaking Nations

One Factor That Can Ensure the Peace of the World

Speakers at the annual dinner of the Canadian Society of New York held recently, emphasized the importance of friendship and understanding between the United States and the nations of the British Empire to assure the peace of the world.

Mr. Justice W. R. Riddell, of the Ontario Court of Appeals, said that while he was president of the League of Nations Society of Toronto at the time the United States decided not to join the League, he was not particularly concerned because he realized there was a far more important league—the league of English-speaking peoples.

"As long as this league exists and the English-speaking countries act in harmony the peace of the world and civilization is secure," Mr. Justice Riddell said. "Let them part, and woe unutterable will follow."

transfix them. Yet she was merely silent, only very still; the quizzical smile the croupier had seen played again about the curve of her lips. The brown of her eyes were browner, more golden than usual. What the women saw was the wilful spendthrift, always startling young American whose whims and flirtations had aroused the Riviera, yielding, melting, swaying to a young man who had neither the grace nor place of any one of that bright company of worshippers which habitually fluttered about her. The man spoke, at last.

"It's good to see you again, Jo!" he said. The brown in the girl's eyes went a shade darker. It was an almost imperceptible change. It could be though, a forerunner of shadows that could make those eyes almost black at times. She withdrew her hands gently. It was as if she had been holding something that, she had suddenly discovered, wasn't there at all.

"I'm glad you found time to come down," she said quietly.

"I intended to surprise you," he explained. "I was going to drop in and have you open a door and come into a room, or something like that, not expecting me, and then, I'd planned to say, 'Hello! You've got your good looks on, haven't you Jo?'" or something like the old days. Didn't think they'd announce me and spoil it."

The haunting shadow remained beneath her lids. She made no reply, but turned to bring up Prince Michael for the introductions. Yvonne, who stood with Kenilworth, saw that John's glance repeatedly swept the room, the litter at the roulette table reminiscent of the recent scene, to return and rest on Joanna. And she saw, too, that Joanna, watching John furtively, was conscious of his inspections of the gambling rooms, the gambling company and of her.

On the terrace, free from the ceaseless confusion in the gambling rooms, the party stood for a few moments, by a common consent, against the white balustrade. Michael and Kenilworth plunged into their polite appreciations of the world wide attention the young architect had drawn to his plan for a unique and stupendous monument to men who went to war. Michael referred to "the late war," John launched instantly upon a correction of that understanding.

"Not alone the men who went to fight in the late war," he said, "but in all wars—those ahead of us as well as those behind us. They all were stirred by the same exhilaration; you know, and always will be. Your ancient crusader fought for a religion but it was a woman, or girl, or one who was still a girl in his fancies, who gave him the courage to go, and sent with him the memories that cheered him. My structure is to commemorate the women who have made every soldier think he is not only a unit in a regiment but a knight with his lady's handkerchief waving from his helmet."

The two women, who had drawn together while the men questioned John, became restive after awhile. Joanna declared, "But we are not to stand here talking about soldiers and wars and things made out of stone. Mr. Wilmore will dine at Amette, I know. You, too, Roddy, if you will. I know Prince Michael has some glamorous engagement of his own for tonight."

Prince Michael bowed elaborately, and acknowledged that he was dining tete a tete. "Although it should be with some one else," he added, favoring Joanna with a meaning glance

that was a reminder of the dash to the frontier the night before. Kenilworth would have accepted promptly the welcome to Amette but Yvonne interfered.

"You can take me to the Metropolitan for dinner," she said to Roddy. "You will not have to change if the balcony will satisfy you, and it will me. I shall run out to Amette later to dress."

Joanna thanked her with her eyes. Kenilworth was inclined to be stubborn, but Yvonne managed the situation. Presently Joanna and John were speeding along the sea road, in her luxurious foreign car, toward Villa Amette. The lights of the early evening were twinkling in the bay, and the perfumes of orange and lemon and geranium were ushering in the mellow Riviera night.

Between the two people in the car there was some subtle barrier. It had come with the shadow back in the salle de roulette. John was stiff; Joanna thoughtful. "You haven't congratulated me," he said, at last. She regarded him gravely from the corner of the wide cushioned seat.

"The wonder of it is overwhelming," she said. "My throat was crammed with the things I was going to say to you when we were alone. They've gone out of it. It has made me very happy, though, when I have read splendid things people say of you. You are going to be a success, after all, aren't you? All your dreams are coming true."

He waited a while before he answered. "Not all of them, Jo. And there's been a nightmare among them, you know. It's never gone away."

Yes, we can join our hymn of praise to that which goes up forever to God from sun and stars, clouds and showers, beasts and birds, and every living thing, giving thanks forever for His great glory.

—Charles Kingsley.

Let not the blessings we receive daily from God make us not to value or not to praise Him because they be common. What would not a blind man give to see the pleasant rivers and meadows and fountains that we have met with?

Has Built Novel House

Ottawa Woman Used all Sorts of Foods for Material

Miss Helen Campbell, of the Dominion Government's Dairy Department, Ottawa, has been playing architect and builder. Her materials have been all sorts of good foods and she has made of them a little house that children think is the most wonderful thing in the world and before which the grown-ups stand fascinated. It is of "stucco"—rolled oats—sprinkled smoothly over a glue-smearing foundation; the opened shutters are of brown bread, and the window sills of dates. The house is shingled with Graham wafers, and the chimneys that rise at each end are bottles of good milk. The path to the hall door is of unpolished rice, bordered with nuts of various kinds; the pillars that uphold the porch are of macaroni, and the steps are of cheese. The curtains are made of lettuce leaves.

MUNICIPAL ELECTIONS.

The matter of nominating and electing councillors and school trustees for the town of Didsbury for the ensuing year is now the issue, and it is to be hoped the ratepayers will take it up and until nomination day give it every consideration possible.

This year, in addition to councillors and school trustees, there will be the nomination and election for Mayor. Mayor Chambers having served his term of office, will be entitled to the privilege of a retirement. He has earned it. The very fact, however, that he has faithfully performed the duties and assumed the responsibilities pertaining to his job has led many to venture the hope that he will

consent to another term. Mr. Chambers has served the town for a period of six years, and, it will be generally agreed, has performed his duties very impartially. The position is not an easy one, and it is often quite a problem to find the right man who is willing to take it. A great deal of tact is required, and there are times when a display of firmness is essential if harmony is to be preserved and just treatment meted out to all.

Even this matter of firmness, however, has its drawbacks, especially when one's critics fail to perceive its necessity. A not unheard of event.

Whether for Mayor, Councillor, or School Trustee, however, immediately a citizen is thrust into the limelight criticism arises as a matter of course, and a recognition of

this fact on his part will lessen the burden of his duties and ameliorate to a certain extent the conditions which arise from time to time.

In the past, it has sometimes been difficult to fill vacancies on our public bodies. Indeed, it might truthfully be said that not one half the interest is displayed in the business of one's own town, generally speaking, as is displayed in an ordinary stock company. Yet in the majority of cases, more money is invested locally than outside.

This attitude really is a reflection on the community, and nothing can remove it, either from this or any other town, but a recognition on the part of the individual that, as a ratepayer and worthy resident, he, too, has a part to play.

The Y.W.C.T.U. will hold a food sale and tea in the Didsbury Opera House on January 29th, from 1 to 6 p.m. This being a new organization any help will be appreciated.

J. W. Phillipson announces an auction sale of household furniture will be held at J. Ruby residence on March 19th.

An Inspiration To Canadian Youth

All America is ringing with praise of George Young, the 17 year old Toronto boy who won the great swimming marathon between Catalina Island and the mainland of California, successfully negotiating this stretch of icy water in a contest wherein one hundred others failed, including some of the world's most renowned swimmers. It was a wonderful achievement, and, following the performance of John Miles, of Sydney, Nova Scotia, who set a new world's record last year in winning the Boston Amateur Athletic marathon in his first race over the 26 mile course, and the enthusiasm which Canadian hockey players are arousing in the big American cities, is having the effect of further directing attention to Canada as a land which produces the finest types of sturdy young manhood.

Through his great feat, George Young not only wins a substantial financial reward, but he leaps into athletic fame. He will be honored, cheered and feted, and his name will long be remembered in the annals of great feats of courage, strength and endurance.

But it is not because of his victory alone that Canadians should be proud of George Young and find delight in doing him honor. Rather our deeper national pride should rest upon the qualities of mind and heart and character which this youth displayed in approaching the hard trial to which he set himself, and the noble impulse which dictated his action.

A poor boy, with no relatives but a widowed, crippled mother to whom he was devotedly attached, George Young voluntarily sacrificed his amateur standing as a swimmer and staked his all on this one effort. He did so not because of a personal desire for fame or money, but in an all consuming desire to be able to take his crippled mother to California and provide her with the means whereby she might regain her health.

The boy's strength of character, his grim determination, and his willingness to sacrifice were clearly shown when, lacking the necessary railway fare from Toronto to California, he started to make the journey on a patched up motor cycle and doggedly pushed his way as far as Arizona. A boy of less character and perseverance would have "passed the hat" in order to reach the goal of his desire. Had George Young not achieved fame as he has done, it is safe to say that, in any event, he would have made a success of his life and in whatever sphere he might choose.

Premier Mackenzie King rightly expressed the sentiments of the people of Canada when, in extending congratulations on behalf of the Government and people of the Dominion, he said that this country shared with equal pride George Young's success and his beautiful tribute to his mother and all that disclosed the secret of his splendid achievement.

Such an achievement in the face of obstacles to be overcome that might well daunt the stoutest heart is an inspiration to the youth of Canada. Thousands of Canadian boys who can never hope to be great athletic champions and whose names will never be found on the lips of millions of their countrymen, but who in meeting the problems and difficulties of everyday life, and in shouldering the responsibilities that may be forced upon them, do so with the same force of character, the same determination, the same willingness to sacrifice self for the good of others, are equally heroic, and of them Canada will be equally proud.

George Young has builded better than he knew. His mother has borne testimony to the cleanness of his young life, and George has in spectacular fashion shown all Canadian boys that a clean life, free from bad habits and dissipation, pays. He has brought forcibly home to all the truth of the old adage that where there's a will there's a way. In bringing fame to Canada, he has likewise brought something of far greater and more lasting value, an object lesson which will mightily appeal to the imagination and love for the heroic in every normal Canadian boy.

This is a real national asset, because it is only through the cultivation and development of those same traits which made George Young a winner that the boyhood of Canada, or of any country, can realize full success in their endeavors no matter what direction they may take, or how humble they may be. It requires exactly the same qualities to make a real success in anything in life as were required to successfully swim Catalina channel.

Hardiness of Weed Seed

Seeds Lying Dormant for Forty Years Will Germinate

The seed of some of the troublesome varieties of weeds show a great tenacity of life. They will resurrect long after they are supposed to have been killed if not thoroughly and skillfully disposed of. The Michigan Agricultural College is engaged, as recorded in Bulletin No. 72 of the Dominion Department of Agriculture on Crop Rotation in an experiment to ascertain definitely how many years the common weed seeds will lie dormant in the soil and then resume growth where suitable conditions come about. Weed seeds are mixed with sand and placed in uncorked pint bottles that are buried twenty inches below the surface and one taken up every five years. The experiment which can be continued for 100 years has already been conducted forty years. After being this length of time in the soil it has been found that black mustard, pepper grass, pig weed, ragweed, wild primrose, common plantain, purslane and curled dock will still germinate. Some of these weeds removed in the earlier years failed to germinate but did so in later years. Ragweed failed to germinate in every trial until after it had been forty years in the soil. As the authors of the bulletin referred to (Messrs E. S. Hopkins and W. C. Hopper of the Field Husbandry Division of the Dominion Experimental Farms) suggest it is apparent that there can be no let up in the war against weeds, especially if the land has once become infected, and that prevention of their getting a start is preeminently the most important method of weed control. Neglect for one year may result in a plague of weeds for a life-time and longer.

Recover Dismantled Car

Berlin Police Deliver It to Owner in Running Condition

A seven-passenger limousine stolen two years ago, dismantled and sold piece meal by thieves to three different junk dealers, has been restored to the owner in running condition by the Berlin police. All it needs is a coat of paint.

More than a dozen policemen and detectives worked on the case off and on. Armed with the numbers of all parts of the stolen car, which is owned by a wealthy industrialist, the police garage mechanics were able to restore the car as it was when stolen.

Canada Attracting Attention

Has Greatest Export Trade of Any Self-Governing Country

Canada is becoming more widely known all the time. In an address before the Chamber of Commerce at Stratford, Ont., on the subject, "Canada, and Her International Relations," Dr. Walter A. Riddell, advisory agent for the Dominion to the League of Nations, declared that Canada's export trade has shown a greater increase than that of any other self-governing country in the world since 1913. He went on to point out that today, due to the rapid expansion in her foreign commerce, her exports have increased 307 per cent since 1913, and to the fact that she is selling products in 56 different countries and 29 dependencies, Canada is no longer living to itself, but is taking a tremendous interest in world peace and the problems confronting other countries. As a result, he declared, Canada is attracting more attention than at any other period in her history.

Robbers Take Heavy Toll

A Billion and a Half Is Stolen Each Year in United States, According to Estimates

Merchandise, valued at \$1,490,000,000 is taken out of legitimate channels in the United States each year by fraud, theft and robbery and sent back into the market through a system of "fence" to undersell honest dealers.

How the "fence," or receiver of stolen property operates to supply the liaison between swindlers, burglars and highwaymen is told in a voluminous report issued by the prison committee of the association of Grand Jurors of New York county.

In arriving at the huge total of losses the report gives the following tabulation: Merchandise frauds, \$500,000,000; credit frauds, \$265,000,000; robbery theft and holdups \$100,000,000; burglary, \$525,000,000.

The report also points out the weaknesses in existing laws which make the illicit dealer almost immune from prosecution.

Plans for Diamond Jubilee

Outstanding events in the history of Canada will be faithfully depicted in pageantry of the most colorful and gorgeous sort, according to plans which are being quietly worked out for the Diamond Jubilee celebration of the Dominion which will be observed July 1, and participated in by H.R.H. the Prince of Wales and Rt. Hon. Stanley Baldwin, Prime Minister of Great Britain, says The Ottawa Journal.

Vegetarians Are Not Immune From Cancer

Cases Occur Among People Who Abstain From Flesh Foods

Inquiries have been conducted among monastic communities in England by doctors connected with the health ministry and from the information thus obtained it has been conclusively proven, says Sir George Newman, chief medical officer to the ministry, that cases of cancer occur among people abstaining from flesh foods.

There is therefore no foundation for the contention that vegetarians are immune to cancer, he adds.

The investigations were made among the Carthusians, a French order; Benedictines, Italian; Carmelites, first founded in Syria, and Dominicans, Spanish, all of whom adhere to a strict diet system, most of them excluding meat.

British Subjects Should Use Canadian Ports

Delay When Landing at New York Would Be Avoided

Canadians are reporting themselves, or are being reported, as the victims of delay and discomfort in the experience of landing from ocean liners in New York Harbor. Delay, discomfort and inconvenience may increase and multiply until Canadians learn to land at St. John and Halifax in winter time, as Canadians learn to sail from Montreal and Quebec in summer time. United States Jacks-in-office operating at the Port of New York may yet teach British subjects that landing at the winter ports of their own country is easier to bear than the delays and discomforts prepared for British subjects at the Port of New York.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

U. F. A. WOULD WIDEN SPHERE OF ITS INFLUENCE

Edmonton.—Rejecting the counsel offered by executive members of the organization, to concentrate on the immediate problems and development of the movement in the province, the United Farmers of Alberta, in convention here, committed themselves to a policy of inter-provincial co-ordination and national organization.

The proposition was opened by several directors of the organization who emphasized the dangers of embracing too large a sphere while the provincial field had not been thoroughly consolidated.

The proponents of national solidarity generally agreed that the farmers of Canada must depart from their purely provincial programs and activities and enter upon a broader undertaking, which would provide greater uniformity of action and enable the organized agriculturists to introduce the influence in federal matters to which the importance of their industry was entitled.

Shortly after the convention had endorsed this policy of action, H. W. Wood, who was re-elected to the presidency of the U.F.A. for the twelfth successive term, indirectly drew attention to the possible consequences of overdoing the development of class consciousness.

Mr. Wood was dealing with the problem of fostering and strengthening the junior branch of the organization. There had, he said, been a slight indication of the development of a spirit of class consciousness in the junior branch, which did not appear to be the most desirable thing.

"I don't think any real or serious damage has been done, but unless we avoid the danger, there is a real menace of this spirit alienating the loyalty of the junior members to the parent organization of the U.F.A."

Plan to Develop Cuban Trade

Minister of Finance Returns to Canada With Proposal

Ottawa.—A trade agreement between Canada and Cuba may result from the visit to Cuba of Hon. J. A. Robb, Minister of Finance.

Mr. Robb has returned to Ottawa, and it is understood he is preparing to discuss with his colleagues in the cabinet the question of improved trade relations between the two countries. While in Cuba Mr. Robb held some preliminary discussions with members of the administration, whom he found most friendly toward the idea of increased trade with Canada. Cuba now gives preferential tariff rates to the United States, but there is a feeling that without disturbing this preference, much can be done to develop Cuban trade.

During Mr. Robb's absence from Ottawa, Premier King had charge of the Finance Department.

Regina.—The completion of the Hudson's Bay Railway in 1927 with specific reference to Port Nelson as the terminal will be debated in the Saskatchewan Legislature during the session just opened, according to notice of a resolution given by O. D. Hill, Government member for Melfort.

Mr. Hill announced that he would move the resolution in the following form:

British Marines Are Sent to China

Will Be Used for Defensive Purposes Only Says Officials

London.—Scenes so familiar in the time of the war a decade ago were re-enacted at Chatham when marines detailed for duty in China assembled to commence their preliminary journey to Portsmouth. Three hundred marched to the station with full field equipment, headed by a regimental band, and were frantically cheered by spectators.

They were joined by another 300 from Plymouth, Portsmouth supplying the remaining 400 necessary to make up the 1,000.

Official quarters again stress that whatever is being done is in no way intended as a departure from the policy of non-aggression. In this connection The Star, a radical newspaper, says:

"If it is intended to impress Eugene Chen, Cantonese Foreign Minister, then it may be possible to justify such a demonstration. But a nation like ours cannot make a demonstration and then draw back."

The marines will sail for China near the end of the month, and according to the Government will be used only for defensive purposes.

Grading Cattle and Sheep

Advocates the Grading at all Stockyards by Federal Graders

Moose Jaw.—A movement looking to the grading of cattle and sheep at all the stockyards in Canada by federal graders was launched at the annual meeting of the Saskatchewan Cattle Breeders' Association here, when a resolution asking the Dominion Government to appoint graders for this purpose was carried unanimously.

Assurance that the Saskatchewan Livestock Pool was going over the top was given by Ole Olafson, director, who stated he expected the objective of 1,000 carloads of livestock under contract would be secured very shortly, possibly by the end of the month.

C. W. Thurston, Regina, president, urged the farmers to grow cattle feed instead of practising the bare summerfallow system and declared hundreds of farmers could spend their time to better advantage by feeding a carload or two of steers each winter.

Youngest Governor in Texas

Austin, Texas.—Governor Miriam M. Ferguson today became plain Mrs. Ferguson and Dan A. Moody became the governor of Texas. The first woman ever to sit as governor of a state in this country turned over her office to Moody, who is the youngest executive in the annals of the state.

OLD AGE PENSION BILL INTRODUCED IN B. C. HOUSE

Victoria, B.C.—An act to provide for old age pensions for the people of British Columbia was introduced into the Legislature by Premier John Oliver. The bill authorizes the province to enter into a general scheme of old age pensions with the Dominion on a fifty-fifty basis. Any agreement entered into would be under any act of the Dominion heretofore or hereafter passed relating to old age pensions and would call for the payment by Ottawa to the province quarterly of an amount equal to one-half of the net sum paid out during the previous quarter by British Columbia.

Under the bill the administration of the act would be in the hands of the Workmen's Compensation Board.

The Premier's proposal to the House is in the form of definite legislation by which the provincial government would be empowered to enter into an agreement with the federal government for the joint payment of old age pensions, the cost being divided equally between the province and the Dominion. This move is proposed in anticipation of the early reintroduction into Parliament of the old age pension bill previously brought down by the Mackenzie King government and rejected in the Senate.

Noted War Correspondent

Martin Donahue, Who "Covered" Several Wars, Dies in London

London.—Martin H. Donahue, noted war correspondent, died recently after several weeks' illness.

He was born in Galway, Ireland, 57 years ago, and after an education which included study of the oriental languages, embarked on his journalistic career with the Courier Australian, of Sydney, N.S.W., in 1892.

He was correspondent during the Boer War for the London Daily Chronicle. He also "covered" the Russo-Japanese war, the Turkish revolution of 1909, the Portuguese revolution of 1910, the Italian hostilities in Tripoli and the Balkan war of 1912-13.

In the great war he was an officer in the British intelligence corps, serving in Greece, Rumania and Russia.

Employment Situation Improved Last Year

Statistics Show Greatest Expansion of Any Year Since 1922

Ottawa.—Employment as reported by employers in Canada to the Dominion Bureau of Statistics during 1926 was in greater volume than in any other year since 1922.

There was almost uninterrupted expansion on a large scale from early in January until the first of October. This upward swing carried the curve of employment to a level many points higher than in any of the last five years. During these eight months of advancing employment nearly 125,000 persons were added to the staffs of the reporting firms, a greater number than had been taken on in the same period of any other year of the record except 1922, when the opening up of industry following the depression of 1921 caused the employment of approximately the same number of extra employees.

In 1926 the most extensive gains were recorded at the beginning of May, June and July, as is usually the case. There were smaller increases in the next three months, followed by declines at the beginning of November and December. Owing partly to the effect of an early winter upon construction, the losses recorded November 1 were rather larger than on the same date in 1925 or 1924 but on December 1 they were smaller than on the corresponding date of any other year of the record, except 1922.

Death of Queen Charlotte

Belgian Court Goes Into Ten Weeks' Mourning

Brussels.—The Belgian court went into ten weeks' mourning for Charlotte, widow of Maximilian, once Emperor of Mexico. She died in the 87th year of a life that had been hardly more than a tragic haze since 1867. In that year Maximilian was executed in Mexico and Empress Charlotte who was in Europe trying to gain aid for his unstable empire lost her reason never to recover it again save in rare and fleeting moments, one of which came just before her death from influenza and pneumonia.

Want Royal Commission

Montreal.—A petition which it is expected will be signed by 50,000 citizens of Montreal is being prepared for circulation by the St. Jean Baptiste Society asking the Premier of the province to appoint a Royal Commission to investigate the Laurier Palace disaster. The petition states that the decision of the city council to hold an inquiry is not satisfactory.

SCOPE OF THE CUSTOMS PROBE TO BE EXTENDED

Vancouver.—The scope of the Royal Commission appointed to inquire into the conduct of the Department of Customs and Excise has been further extended.

When the commission resumed sittings, Chairman J. T. Brown produced an order-in-council passed on January 14, by virtue of which the commission is given even fuller powers of investigation. Under the terms of the order which was passed on the recommendation of Premier Mackenzie King, the commission will in addition to the powers already conferred, be empowered "to inquire into and report upon all other matters coming under the administration of the Minister of Customs and Excise which affect the public revenue of Canada or relate to the operations of any person or corporation owning, operating or employed in connection with any business carried on under the provisions of the Excise Act or Customs Act, or any regulations made thereunder, or are incidental or closely related to any of the matters or things hereinbefore or in the said commission mentioned or referred to, and that they be authorized by the commission to be issued in that behalf to exercise all or any of the powers mentioned in sections 11 of the inquiry Act."

Conferring of Titles

Discussion Is Opened by Suggestion Made by Premier Ferguson

Toronto.—Considerable discussion has followed the suggestion made by Hon. Howard Ferguson, prime minister of Ontario, at the banquet in honor of Col. Harry Cockshutt, retiring Lieutenant-Governor of Ontario, that the House of Commons should remove the ban placed on the conferring of His Majesty's favor for distinguished service in appointive positions like that just vacated by Col. Cockshutt. He emphasized that he did not suggest that the "no titles" ban be removed in the case of persons elected by the people.

W. F. Nickle, K.C., who, while member for Kingston in the Commons in 1918, was the father of the "no titles" resolution which was endorsed and sent to His Majesty, said he saw no reason for changing his opinion. He thought there ought not be attached to any democratic country "an outgrown and wornout system."

Canada Should Share British Navy Burden

Resolution is to be Laid Before B.C. Legislature

Victoria, B.C.—A resolution urging the Canadian government to shoulder a fair share of the cost of the naval defence of the Empire will be introduced into the legislature this session by Major Alan Lyons, Conservative, Victoria.

Making this announcement in the House, Major Lyons said he had felt shameful for Canada as he listened to Premier Stanley M. Bruce of Australia delivering an address on imperial affairs here.

"The time is ripe for this province to take a stand on this matter," Major Lyons said. "If we are going to be the big people we think we will be, we should take the initiative and press Ottawa to assume a proper share of the imperial defence burden."

New Grain Inspection Point

Moose Jaw.—Moose Jaw is to be a grain inspection district as from August 1 next by virtue of an Order-in-Council which has been approved by the Governor-General. Word to this effect was brought to this city by J. Gordon Ross, M.P. for the Moose Jaw Federal constituency, on his return from Ottawa.

Seaplane Destroyed by Fire

Los Angeles.—Catching fire while returning from battle manoeuvres of the United States fleet one mile out from Los Angeles harbor the navy seaplane 2-F1 was completely destroyed near Dead Man's Island. Her crew of five was saved. The flames were caused by backfiring of the engine. The craft cost \$30,000 to build.

Bringing Home the Bacon

All manner of birds and animals have at some time or other been elected as mascots. Pigs as a rule are never elevated to such a position of honor, but the one in the photograph is an exception. While Miss Evelyn Evans of Brooklyn, voyaging around the world on the Canadian Pacific flagship Empress of Scotland, was on a shopping tour in Funchal, Madeira, she bought this domesticated pig. Her fellow passengers promptly elevated the animal to the post of cruise mascot of the Empress of Scotland. And now the porker will be "taking the air" of foreign ports in the four corners of the earth before the Empress sails back to America from her 30,000 mile voyage.

Invitations are in order. Thus an opportunity will be given in our church service next Sunday morning to extend an invitation from Didsbury Ev. church as the proposed seat for the first Annual Conference of Canadian North West. The vote favoring such an invitation should be as nearly unanimous as possible. This first session will take place about the middle of June and in the main, the official attendants will be the 22 ministers who are at present stationed in this district.

KNOX AND WESTCOTT UNITED CHURCH

A crowded church heard the Missionary address on Trinidad last Sunday evening. The minister is taking for his theme for the last Sunday in January, "Disciples for building and battle." The sermon is founded on an incident that happened on the last Sabbath afternoon that we have recorded of, in connection with the life of the Saviour. A large crowd followed Him and he turned and asked them two questions. These are not first century questions, but right up-to-the-minute. It is wrong to think that it is easy to be a Christian. To think thus, is to misunderstand Christ's message. But we should get clear on the main issues and that is why intelligent preaching is necessary. So many have wrong ideas of what constitutes the individual cross that we are asked to carry. The minister will explain what is meant by "taking up his cross and following me." The terms of discipleship are severe, but can you not hear Christ say, "I am in this world to do battle, and I am in this world to build, therefore I need disciples who will stand by Me till the building is done and the battle is won."

LUTHERAN CHURCH.

Sunday, January 30. -- Westcott--10.30 A.M., German Subject--Elijah's Trial and Comfort.

Though it is difficult to issue the call to repentance, it is disheartening to have that call ignored and universally despised. In the midst of general apostasy, ministers of the gospel have therefore not only been inclined to say as did Elijah, "I even I only am left," but have been tempted to forsake their calling. Yet in the apparent hopelessness of their task they, like the prophet, have ever again been comforted by the promise of God that seven thousand have not bowed their knees to Baal, or as Paul puts it, that a remnant shall be saved. For those who have scruples concerning the existence of a living Christianity in the midst of a pleasure-mad, money loving world the sermon to be delivered on 1 Kings 19:9-18, will prove instructive and encouraging.

The Walther League meets at the church on Wednesday evening at eight o'clock.

self respect and was satisfied with that, it might be no great harm would be done. At the worst, we might be sorry for his narrow mindedness and regret the pleasure and profit he had missed through his failure to appreciate the part education plays in life. But most of these men are not content to keep such views to themselves, but set out to impose their obsolete ideas upon those about them. Then they become a matter of public concern, as anti-social forces, which earnest thinking men and women must
